

PRESS RELEASE

SANTA FE**Sizes** 13"x13", 6½"x6½"**Description** Enchanting as the land where its namesake city is found, SANTA FE exudes antiquity combined with modern simplicity. The satiny, distressed surface contains light-reflecting particles reminiscent of sun sparkling off the desert sands. A strong porcelain body and glazed surface offer durability as well as simple maintenance; two sizes provide multiple pattern possibilities.

Just as the streets of Santa Fe all originate from the central plaza and draw people there, wherever the gentle, natural colors of beige, gold and terra cotta are featured in the home or office, they too attract attention and bring people together. Maybe it's to the open kitchen, the great room, the media center - anywhere interpersonal time is important SANTA FE's subtle colorations, countertop trims and cut-from-the-tile single bullnose serve as an inviting backdrop for other decorative elements.

Mesh-mounted mosaics composed of multiple-length 1" rectangular pieces create a high-interest level whether installed on walls or floors. The pieces can be installed in their original 13"x13" sheet or cut apart into narrower listelli to bring a touch of "designer" to any installation.
