Description: Choices, choices it's all about choices. And Marazzi's **STONE COLLECTION** color body glazed porcelain offers so many . . . four dramatic, large-format modular sizes in three muted, grayed earthen tones – Stone Anthracite, Stone Green, Stone Ivory – with two mesh-mounted mosaic formats, a striking listelli with a wood link plus cut-from-the-tile SBN.

A smooth, touchable surface belies the depth of movement and sense of refined texture. Artful transformations from minimalistic to well-accessorized occur easily without professional design assistance simply by mixing and matching these diverse elements to customize residential or commercial areas.

The colored porcelain body reduces/minimizes the visibility of small impact chips. Frost resistance (< 0.5% water absorption) and $0.60 \leq \text{COF} < 0.70$ are engineered into the line.
