

PRESS RELEASE

TIMELESS COLLECTION – OLD IS NEW

For Immediate Release April 27, 2010
Sunnyvale (Dallas), TX

Classic beauty never goes out of style, and Marazzi's new **TIMELESS COLLECTION** provides a fresh take on the perennially popular look of traditional marbles. Retained are the rich color variations, the dramatic veining, the sensuous movement of honed marble.

The **TIMELESS COLLECTION** is created through Marazzi's state-of-the-art 3d printing technique, which uses the latest in **digital** print technology, allowing for infinite **design** capabilities unique to Marazzi. Marazzi is the only manufacturer in the U.S. that can do digital print up to 360 dpi, direct to tile. At this maximum resolution and with the unique grayscale printing technique, Marazzi reaches finer, crisper and smoother **definition** for printed designs than other digital products. A stunning palette of more than 100 square feet with no repetition, at maximum resolution.

The range of color and pattern rivals that of natural Calacatta, Crema Marfil and Emperador, making each installation uniquely random and varied in appearance. Combining this multiplicity of surface designs with the broad range of sizes in rectangular and square formats affords any designer or consumer an outstanding array of options for creating truly unique home or work venues.

A decorative mosaic of small hexagon-shaped segments and a single bullnose trim for all colors complete the offering.

Produced in the U.S.A. with minimal maintenance requirements, rectified edges, durability and slip-resistance of color-body porcelain, plus the contribution to LEED credits -- **TIMELESS COLLECTION** is a win-win for today's residential and commercial customers.
